

## Mr. Agbor Taku Junior

*Junior Research Officer*

*Institute of Geological and Mining Research*

*CEO/Co-Founder of Filed Geologist App, field-geologist.cm and T&A Developers.*

Mail: [takujunior99@gmail.com](mailto:takujunior99@gmail.com)

[taku\\_agbor.ceo@field-geologist.cm](mailto:taku_agbor.ceo@field-geologist.cm)

### Research fields

- Sedimentology (esp. Marine Deposits)
- Sedimentary Geochemistry
- Stratigraphy, sedimentology and palaeontology of Rio del Rey, Douala and Mamfe Basins
- Stream and Alluvial Sediment Geochemistry
- Petroleum Geology
- Exploration Geology

Geology Projects		
Project	Position	Year
<b>Institute of Geological and Mining Research</b>	<b>Ore and Image processing Researcher</b>	<b>2016-present</b>
Rio Del Rey, Mamfe and Douala/Kribi Campo Sedimentary Basin Analysis	<b>Principal Researcher</b>	2016 - Present
World Bank financed Nationwide Geological Mapping of Cameroon (BRGM/GTK/BEIG3/PRECASEM-GEO4CAM) Project	<b>Team Leader</b> for Geochemical Mapping Team 7	2016-2017
CIMENCAM-Cameroon Limestone Mapping Project	Contract Exploration Geologist	2015-2016
Petroleum Exploration of Komsos Energy Ndian River Block	Junior Field Geologist (Intern)	2012-2014

### **Scientific Publications:**

1. Olivier Anoh Njoh and **Agbor Junior Taku**. (2016). **Shallow Marine Cretaceous Sequences and Petroleum Geology of the Onshore Rio del Rey Basin, Gulf of Guinea**. *Open Journal of Marine Science*, 6, 177–192. <http://www.scirp.org/journal/ojms>.
2. Binam Mandeng Eugène Pascal, Bondjè Bidjeck Louise Marie, Takodjou Wambo Jonas Didero , **Agbor Taku Junior**, Bineli Betsi Thierry, Ipan Antoinette Solange, Tchami Nfada Lionel, Bitom Lucien Dieudonné (2018). **Lithologic and Structural Mapping of the Abiete-Toko Gold District Southern Cameroon, Using Landsat-7ETM+/SRTM**. *Comptes Rendus Gesocience*. <https://doi.org/10.1016/j.crte.2017.11.003>.
3. John Eyong Takem, **Agbor Junior Taku** , Nolla Junior Desire, Bessong Moïse, Mero Yannah, Victor Joseph Hell, Paul Wignall, and Jim Best (2017). **Evaporite Minerals of the Mamfe Basin, SW Cameroon: Lithostratigraphic setting, genetic origin of metal impurities in surface brines and source of radioactivity in evaporite host rocks**. *Sedimentary Geology* (Article undergoing Review Process).
4. Ndong Bidzand Francois and **Agbor taku junior** (2017). **Age and Paleoenvironment Determination of the Tectono-Metamorphic Events in the Ngovayang Eburnean Chain (NEC), North-Western Congo Craton, South Cameroon**. *Journal of African Earth Sciences* (Article undergoing Review Process).
5. Amidou Kpoumie, Abdou Nasser Ngouh, Jules Rémy Ndam Ngoupayou, **Junior Agbor Taku**, Zakari Mfonka, Oumar Farouk Moucherou, Salomon Cesar Nguemhé Fils, Vincent Bustillo, Georges Emmanuel Ekodeck (2018). **Spatiotemporal Runoff Evolution in the Sanaga Drainage Basin, Centre Region, Cameroon**. *Water Resources Management Journal* (Article undergoing Review Process).

### **Available to work with:**

- 1) Students undertaking masters projects
- 2) Taking students for field mapping
- 3) Part time / evening school teaching
